NEW IPAD/LAPTOP PROCEDURES & REPAIR COST

2023-2024

Upon acceptance of a Roseville Community Schools 1:1 device, a signature form was signed acknowledging the responsibility of the user to pay for damages related to the device. See below information for cost assessment information:

****Roseville Community Schools will inform you if there are any fees associated with your device. ****

The following list provides a break down of costs related to device specific damages. If it is determined that a problem is the result of a faulty device and not the result of an accident or misuse, repairs may be covered under warranty and charges would not be passed on to the family. Examples of such instances may include blinking caps lights, device not powering on (with no physical damage, liquid or otherwise), or battery malfunction.

1. The replacement cost of the device is approximately \$450 & \$350 for iPad and includes: the device, device case (if provided), charger, software applications (apps) including assorted programs/accessories specific to individual classes.
2. In the event that a device is extensively damaged, the parent/guardian will be assessed a fee up to \$450 & \$350 for iPad for the repair or replacement of the device. Excessive damage would constitute a combination of damages that add up to more than the cost of the device, damages that cannot be repaired, or damages that are considered malicious destruction of school property.
3. If a device is lost or stolen, a police report must be made within ten (10) days. If proof of a police report is provided to the District, the following fee will be \$450 laptop & \$350 for iPad.
4. Other repair costs include

- | Laptop | i-Pad |

New iPad/Laptop Repair Procedures

- Any damaged device that needs to be serviced will be sent or brought to the technology department at Administration Building 18975 Church Street. An issued receipt will given.
- The technology department will look over the device and notify you of the cost of repairs if applicable.
- For any reason if repairs come back costing more or a total loss and the device cannot be repaired the student is responsible for the difference in price.
- As soon as the fine has been paid or a monthly payment plan has been arranged the student will receive a district loaner device if available.
- Any damages to said loaner will be the responsibility of the student and fines will be assessed for that device. Students will not be issued another loaner until payments are made.
- Once the device is returned from repair and the fine accessed for that device has been paid or a payment plan has been arranged. The student will return the district loaner and will receive their issued device.
