Parents and Guardians,

It is common knowledge that there is a major loss of information during summer break. This is sometimes referred to as "summer slide". This loss of information sets students back for the upcoming school year. In order for our students to remain at, or go beyond grade level, students need to continue to practice various skills over the summer. The staff at Eastland Middle School has created a summer learning packet that will help in this area. The packet will cover four subject areas; predominantly math, however it will also have English, science, and social studies.

The packet will be broken into subject areas and a general timeframe for when each section should be completed is below:

ELA=read the book throughout the summer and answer questions as you're reading

Math=July 7, 2017

Science=July 21, 2017

Social Studies=August 4, 2017

The completion of this packet is important, so each section will count as your child's first summative grade (test grade) in that subject area.

We will add the entire packet to the Eastland Middle School website in case replacement pages are needed.

If you have any questions, please contact me at (586) 445-5700.

Sincerely,

Major Mickens, Ed. D.

Principal
