Summer 2023

ROSEVILLE COMMUNITY SCHOOLS ADDS NEW PRINCIPAL, DEAN OF STUDENTS

Roseville Community Schools is proud to announce two new school administrators for the upcoming 2023-2024 school year. Dr. Joseph Trobaugh, Ph.D. has been named principal of Fountain Elementary School, and Alexandra Ward is the new dean of students at Eastland Middle School.

Trobaugh, a 1998 Roseville High School graduate, comes back to the district after 18 years in education in a neighboring district. Since 2012, he has taught fourth/fifth grade accelerated social studies and ELA. He has also held positions as a summer school reading instructor and a tutor for Brainspring, a company specializing in teaching students with dyslexia. Trobaugh holds a Ph.D. in educational leadership, a master's degree in special education, an Educational Specialist degree, and a bachelor's degree in elementary education with a minor in English.

Trobaugh said that he was drawn to the district after meeting Roseville Community Schools Superintendent Mark Blaszkowski during work on his doctorate. "With his vision and goals for the school district, I was excited to work with and for someone whose ideas, values, and commitment to the community aligned with mine." He added that he believes Roseville is a very innovative district. "They support their teachers and really put kids and families first with a variety of initiatives. The district has always adapted to the ever-changing educational landscape and has proven to be successful in many areas." Blaszkowski said that Dr. Trobaugh has an outstanding background. "We are excited to tap into his knowledge, not only for Fountain, but also the district."

Ward has been teaching ELA at Roseville Middle School and Eastland Middle School since 2019. She has also served as an after-school tutor and a member of the Community and Culture Committee. She earned a bachelor's degree in professional writing and English from Michigan State University, as well as an accelerated teacher certification

from Saginaw Valley State University. She is on schedule to complete her master's in educational leadership in August from Wayne State University. Blaszkowski believes that Ward will make a great advocate for students "Ms. Ward understands the importance of listening to students to get to the root of the problem to help the families navigate issues."

Ward said that she believes that she brings the ability to both listen to and motivate others. "I care deeply for the students and am looking to help them succeed in life and learning." She added that she hopes to continue building the "fantastic" community at EMS, by cultivating positive relationships with the community, parents, and students. "Creating a space where both teachers and students love to be is my goal as a school leader."

Brandon Komarowski, who has spent the past six years as principal of Fountain Elementary, will

be moving to Patton Elementary to serve as principal, as well as the district's English Learners Coordinator. He takes over for Jeanne Williams, who retires after 25 years in the Roseville district. Brenda Baker takes over as principal of Dort Elementary School. She has spent the last several years as assistant principal at Roseville Middle School and Eastland Middle School, but she got her start teaching elementary school at Dort. Baker takes over for Mike Zimmer, who moves on to an opportunity in another district. Joe Jelsone, who spent last year as the dean of students at EMS, will be moving to RMS to fill the assistant principal role.

MESSAGE FROM THE SUPERINTENDENT

I hope everyone is enjoying the summertime, filled with family get-togethers, pool parties, or maybe some cornhole competition. Summer is always a good time to reflect on the last school year. Even more importantly, we look forward to making the next school year better. One of the most noticeable issues this past year was a severe lack of attendance in school, which is a national crisis. We have recently created an Attendance Committee of parents and staff to address this concern. Eventually students in secondary schools will be engaged in this committee work as well, which will be looking at the best ways to improve student attendance.

One of the ways to help combat poor attendance is to involve the community, including parents. The community can help by supporting the schools with incentives or helping spread the word of how important it is to go to school. We all know that good parents want their child to be successful in and out of school. Studies have shown that a ninth grader who misses a week of school decreases their chance to graduate on time by 20%. In the 2021-2022 school year, we required all our students

to return to school in-person. The attendance rate at each school exceeded 50% of students having 18 or more absences. How can we get our students to be independent if they cannot manage to commit to school?

School teaches more than just academics. It teaches responsibility and how to work with other people both as fellow students or how to take direction from an adult or boss like figure. School also provides education that opens doors to opportunities. RCS does a fantastic job providing many pathway opportunities to success. Families play an integral part of the educational process, and it is essential they participate in their child's education. The best way to do that is to get your child to school regularly.

One of the most important things parents can do is ensure their child comes to school regularly. When a student misses school, the next day is much harder. So much so that it will create more anxiety and stress on a student. It's important that we all work together to get our students back on track by getting to school every day if possible. This will help our students be successful in the future.

Sincerely, Mark Blaszkowski

RCS RENOVATES RHS MEDIA STUDIO, TAKES ON OTHER SUMMER BOND PROJECTS

Infrastructure and cosmetic improvements continue this summer throughout the Roseville Community Schools district, residual from the bond initiative that was passed by the community in 2018.

One major undertaking is the renovation of the News and Broadcasting Media Productions Studio at Roseville High School. The renovation will create a bigger space for student video productions, complete with a green screen and an increased editing suite area with upgraded computers. "The room is completely demoed, and the new framing walls are up. The lab should be ready in the fall for the start of classes," said Director of Building and Grounds Joe Smith. RHS Principal Jason Bettin said that the News and Broadcasting Media Productions courses offer a career exploration pathway for those students who may be interested in a career in the field. "Students learn all aspects of media productions in these courses, from scripting and speaking skills, to creating broadcast storylines, filming, editing, and producing. These courses help prepare students as they explore their future plans." He added that the renovations taking place ensure that RHS students learn through state-of-the-art technology. "These resources match what they would find in a real-world workplace, helping to ensure that they are college and/or career ready."

Work is near completion on the Ascension Health Clinic at Roseville Middle School, which is going into the old L.B. Williams Room area. A Mental Health Specialist is already being utilized by students and Superintendent Mark Blaszkowski says that there is an opportunity to expand in the future. "Currently, we are providing service to RMS students,

but if there is an opportunity to include other students in the district in the future, we will."

The 2018 bond also provides the district with two technology refreshes for 1:1 student devices. With initial purchases of student laptops and iPads in 2019 complete, the district is starting work on the first refresh. During the fall, the district will be collaborating with teachers and staff to evaluate potential new student laptops and iPads that are available by comparing their functionality, durability, warranty coverage, and support. "Once the evaluation is completed, a recommendation for approval will be made to the school board after the first of the year so that the student devices can be distributed before the start of the 2024-2025 school year," said Director of Technology Mike Antoine. Additionally, as ransomware cyberattacks continue to increase in educational institutions, the board of education approved the purchase of a Dell Cyber Recovery system, a secure data vaulting solution that protects and enables the recovery of the district's most critical applications and data.

Several smaller projects are also on the docket for this summer. Galvanized pipes are being replaced with copper pipes at RHS. "Copper pipes are resistant to corrosion, prevent chances for bacterial development, and are less likely to develop a leak," said Smith. Every school is being equipped with drinking water bottle fillers, which were retrofitted to the existing water fountains. Heating units are being replaced in the RHS kitchen, RHS auto tech wing, science labs at RMS, and at the Ascension Clinic. There is also a replacement of the railing system in the upstairs hallway near the east entrance at RHS.

CONGRATULATIONS CLASS OF 2023

2022-2023 RCSSF SCHOLARSHIP WINNERS

Ron Anderson ♦ Ali Badawy ♦ Elijah Baker ♦ Makayla Barbee ♦ Austin Barnett ♦ Micah Battee
Tyler Bishop ♦ Makhi Brand ♦ Nabeela Campbell ♦ Leonard Curry ♦ Jacob David
Alexis Dean ♦ Ramiyah Dean ♦ Christian DeFilippi ♦ Nathan Donaldson ♦ Julia Fetty
Paige Guinn ♦ Kendra Hinkle ♦ Mariyon Horton ♦ Mackenzie Hubbard ♦ Grace Hull
Heaven Ivey ♦ Zakiyah King ♦ Saniah Love ♦ Sydney Masterson ♦ Dezzmon Meriwether
Katelynn Miller ♦ Kimberly Morales ♦ LaKyra Moss ♦ Takina Munlin ♦ Kaylee Nagorny
Ronde' Neal ♦ Devin Newsom ♦ Jessica Olinger ♦ Zacarias Osorio ♦ Grace Patterson
Amayah Price ♦ Julia Puckett ♦ Genisus Reed ♦ LaKiya Reese ♦ Kiarah Roulston
William Scheinpflug ♦ Tyreia'na Simon-Garner ♦ Jason Siskowski ♦ Kandace Stackpoole
Jolena Szemyak ♦ Eduard Telychkan ♦ Sha'Niya Thomas ♦ Paige Tomala ♦ Lainey VanDerHam
TaKye Walker ♦ Asia Wheeler ♦ Miranda White ♦ Isaiah Williams ♦ Paige Yang

GET TO KNOW OUR TEACHERS

JESSICA CHAFFIN - GREEN ELEMENTARY

Jessica Chaffin has been teaching for 11 years. She started as a Title I ELA teacher in another district before joining Roseville in the fall of 2015. She served as an elementary data coach at multiple schools for a year before returning to the classroom at Green (formerly Huron Park). She has taught grades 3-5 while at Green, as well serving as one of the district's elementary instructional coaches. "Coaching can touch on many areas including curriculum, goal setting, modeling/pushing into classrooms, co-teaching, student data analysis, blended learning, classroom management, and much more." She said that laughing with her students and seeing their growth throughout the year is the best part of teaching. "It is amazing how much they change in one school year." She added that she loves working with students in small groups and focusing on reading skills. "That time with the students is so valuable and helps to build strong relationships with them." Chaffin graduated from Oakland University, earning a bachelor's degree in human resource development - training and development and a Master of Arts in Teaching with an ELA focus. Chaffin is married to husband, Chris, and has a 12-year-old son and 15-year-old daughter. They also have an Australian Labradoodle named Teddy. "We like to spend time out on our boat, go camping, or spend time at my family cottage in the summer. We keep busy with all of that on top of my children's various activities throughout the year." She added that she loves photography and had a fun job in her younger years. "I worked for Disney World in The Magic Kingdom when I was younger and then moved into a position doing marketing for the company before moving back to Michigan."

CHRISTINE BECKNER - ROSEVILLE MIDDLE SCHOOL

Christine Beckner has been teaching for nearly ten years. She taught preschool for three years before moving to teach science at the middle school level for five years in a neighboring district. A year and a half ago, she returned to Roseville where she graduated from in 2008. This fall, in addition to teaching sixth grade science, she will be taking on a new challenge at Roseville Middle School, spearheading the new STEAM offerings: Intro to Robotics and Underwater ROV. "I will be teaching students about the engineering design process and supporting them to design, engineer, and construct a fully functional underwater remotely operated vehicle or ROV." Beckner said that this class will give students engaging real world experiences. "We will explore different careers that they could look into, and we will work in teams to help build collaboration skills." She said that her favorite thing about being a teacher is getting to know her "amazing" students. "I love pushing my students to think about science in a new way and I love to make learning hands-on and exciting." She added that she would love to bring students to a robotics competition and bring home the school's first trophy. Beckner graduated from Northern Michigan University, earning her bachelor's degree in elementary education with a concentration on science. She met her husband, Evan, at Roseville Middle School in seventh grade and has a 5-year-old daughter named Emilia. She also has a rescue dog and a pet snake that she keeps in her classroom. When she's not at school, she enjoys playing video games, kayaking with her family, and continuing to learn new things about science.

ZACHARY ROHDE - ROSEVILLE HIGH SCHOOL

Zachary Rohde just finished up his third year of teaching. He taught in Detroit for a semester before starting at Roseville High School, where he has taught tenth grade U.S. History and Geography. He also serves as a union representative for RHS. Rohde said that the favorite thing about teaching is that he can provide a safe place for them to learn and a place where they can perform at their very best. He added that his favorite activity to do with his students is playing Blooket. "Blooket is a game-based system that has 12 game modes that asks students questions with a task to complete. The more you get right, the more you work towards the task. It brings out the competitive side of my students while also learning." Rohde attended Wayne State University, earning his degree in secondary education. Outside of the classroom, he is married to wife, Maria, who also works in the Roseville district, teaching fifth grade at Patton Elementary. "We have a daughter, Eliana, and three animals - a dog named Bert and two cats named Callie and Sosa." Rohde enjoys physical activities of any kind and playing video games. "I enjoy golfing and going to the gym the most. My favorite video game right now is *Diablo 4* which just came out."

RHS REST STUDENTS EARN VICTORIES IN HACKATHON CHALLENGE EVENT

Two Roseville High School students emerged victorious in the highly competitive AI Ground Vehicle Hackathon Challenge event, held on July 13 at the Advanced Manufacturing Commercialization Center (AMCC) in Sterling Heights. Sumner Hull and Luis Gomez-Veloz, both members of the REST (Roseville Engineering, Science and Technology) Robotics Club, earned first place finishes in two categories: the ROS Challenge and the Artificial Intelligence Challenge.

Bob Smitka, REST Robotics sponsor at Roseville High School said that Hull and Gomez-Veloz successfully developed a fully autonomous ROS system that leveraged lidar and open cv technologies to navigate a complex course. "Their exceptional technical skills, innovative problem-solving, and strategic planning were integral to their victory, distinguishing them as rising stars in the field of robotics." He added

that their achievement is a testament to their meticulous planning, technical expertise, and tireless efforts. "Sumner and Luis have consistently showcased exceptional skill and dedication throughout their involvement in REST Robotics. We are incredibly proud of their achievements and look forward to witnessing their future accomplishments."

Hull and Gomez-Veloz were awarded gift cards, Raspberry Pi Pico microcontrollers, and access to premium educational courses on ROS (Robotic Operating Systems). Additionally, both students received internship offers at local technology companies in Macomb County, solidifying their path towards a promising future in the field of robotics and artificial intelligence. The AI Ground Vehicle Hackathon Challenge was sponsored by MARZ (Macomb Automation and Robotics Zone), the US Army, Department of Defense, and other industry partners.

ALUMNI CORNER

Michelle Boggess-Nunley attended Lincoln Elementary, Roseville Junior High and Roseville High School, before finishing at Guest Community Center in the continuing education program. While in school, woodworking was her favorite school activity. "We had an amazing wood shop at RJHS, taught by Mr. Quinn. It was there that I developed a love for building things with various kinds of woods and finishes." Michelle said that school was often tough for her. "I struggled to get through it, and I think it's important to be honest about that. There were a handful of teachers throughout the school system that stepped in at the right times in my life and I'm not sure where I'd be today without those special people who went an extra mile to keep a struggling kid from falling through the cracks." Michelle said that the teachers who applied a hands-on teaching approach were her favorites, including Mr. Quinn, and her fourth grade teacher at Lincoln, Mr. Byrnes. After high school, she attended the Academy of Court Reporting and Macomb Community College, but it was her love of art that would guide her career. She currently owns Posterity Art & Framing Gallery located in Grosse Pointe. "The gallery has been in the community for over 30 years, and I'm honored to be part of its future." She said that her vision was to create an inclusive art space for artists and the community. "We now have new rotating exhibitions on display every month and we'll extend the art into the entire Village of Grosse Pointe

this upcoming September to create more exposure for local artists." The gallery is also a full-service custom framing shop with over 2000 frame choices. "There's a full woodworking shop downstairs where we build custom frames from start to finish for various types of artwork, photos, and commercial orders." Michelle has continued to focus on her own artwork as well. In 2020, she broke the Guinness World Record for the World's Largest Hand-Drawn Maze. "Over a three-and-a-half month period, I stood in Posterity's window with a video recorder, a box of 250 sharpies, two live witnesses and drew a 1,126 square foot maze to raise money for local art programs." You can watch the timelapse video of the project at <https://www.facebook.com/watch/?v=431172744537001>. She has since created maze illustrations for *The Guardian*, *Atlas Obscura*, Zach Sherwin's traveling *Crossword Show*, and *The Puzzler* by AJ Jacobs. She also painted a unity maze mural on the side of Alma Kitchen in Grosse Pointe and is currently working on her own mystery maze book with writer Bruce Whitehill. Outside of the gallery, Michelle is married to husband Royce, and has two kids, Zeke (11) and Mia (7). They enjoy hiking, visiting national parks, and having Sundays together. "It's the day we can all be together for a full day without work or school. It's so important to make time for each other as a family, shutting off our screens and just really be together." Michelle added that she has great memories of Roseville Schools. "Many of the techniques and skills I learned in Roseville woodworking classes I use every day in my work."

Do you know of a former Roseville student who's doing great things? Let us know!

productions@roseville.k12.mi.us

A LOOK INSIDE OUR SCHOOLS...

The EMS Marching Band performed in the Roseville Memorial Day Parade

Yoshi's Yacht won Roseville High School's Cardboard Regatta in mid-May

Fountain students earned prizes for positive behavior in June

Kaiser partnered with the City of Roseville to plant a tree in memory of Kaison Hall in June

Patton visited the Roseville Fire Department in April

Do it Ready reward winners enjoyed a visit from the Motor City Gaming Truck in June

Students and families had a blast at the Konekt Family Picnic in early June

High School and Middle School choirs performed at the Spring Choir Concert in May

Gifted and Talented program students programmed Lego Spike vehicles

Ms. Foister's kindergarten class at Steenland created animal puppets in June

A chilly and rainy day in early May couldn't slow down the RHS Track Team

RHS honored our wonderful school volunteers at a luncheon in late April

In mid-May, Roseville High School's REST Team had another winning day at the Square One Education Network #IVD2023 Challenge Day at Kettering University. The REST Robotics team took home first place in the Mini IVD Engineering competition and second place in V2X Innovative Engineering competition.

On May 6, the Roseville Community Schools Scholarship Foundation held their annual Joe Manfreda Dream Dash 5k/1k fun run. The event was a huge success, featuring over 200 runners, 50 volunteers, and 30 sponsors – all helping to raise over \$5500 for our future RHS graduates.

RMS 8th grade students had a jam-packed trip to Washington D.C. in early May. Students and chaperones visited Gettysburg, Arlington National Cemetery, Jefferson Memorial, the White House, the Capitol, Museum of African American History, Holocaust Museum, and much more.

On June 8, Kaiser Elementary revealed their Kindness Mural. Every student and staff member contributed to the mural, led by Melinda Forward from Kindness Club International. The mural, which faces the student playground, will serve as a constant and beautiful reminder to students to treat each other with kindness.

Green Elementary students turned principal Donna Ambrose into a human ice cream sundae in late April. Students raised over \$9,000 in donations from their Walk-A-Thon, well surpassing the initial goal of \$5,000.

Dort Elementary staff and students had a blast at the NFL Play 60 assembly put on by Blue Cross/Blue Shield and the Detroit Lions on April 26. Students learned about being responsible, eating healthy, exercising, and much more.

20th Annual

HOLE SPONSOR:

The Roseville Community Schools Scholarship Foundation began with a dream and a goal when it was established by the Roseville Kiwanis Club in 1963. The dream was to touch the lives of Roseville's young people; the goal was to raise funds to aid them in their continued educational quests.

In 1984, the Roseville Board of Education joined the the ongoing project. Today, citizen volunteers, educators, business representatives, and local leaders assist in the process of raising funds and allocating scholarships to deserving recipients. This year, we awarded 55 \$1200 scholarships to recipients.

In April 2022, the Foundation officially became a 501c3 organization. This allows additional opportunities to receive donations from individuals and companies wishing to donate to a charitable organization. If you own, work for, or know of a company looking for a charitable organization to donate to, we would greatly appreciate you sharing the Roseville Community Schools Scholarship Foundation name with them.

RCSSF Tax ID No: 87-1665026

Statement of Assurance of Compliance with Federal Law

It is the policy of the Roseville Community Schools District that no discriminatory practices based on gender/sex, race, religion, color, age, national origin, disability, height, weight, or any other status covered by federal, state or local law be allowed in providing instructional opportunities, programs, services, job placement assistance, employment or in policies governing student conduct and attendance.

Grievance Procedure :

Section 1: Any person believing that the Roseville Community School District, or any part of the school organization, has discriminated on the basis of race, color, national origin, gender/sex, age, disability, height, weight or marital status, may file a grievance with:

Civil Rights Coordinator
Administration Building
18975 Church Street
Roseville, Michigan 48066
586-445-5513

Grievance forms are available from any building principal or from the Administration Building.

Section 2: All grievances will be processed through the following steps:
A. A written statement of the grievance, using the district's grievance form, shall be submitted to the Civil Rights Coordinator.

B. Upon receipt of the completed grievance form, the Coordinator will conduct an investigation and notify grievant of the results, including any remedial measures. Normally, the investigation will be concluded within (30) thirty school days.

C. Within (10) ten school days, the grievant may appeal, in writing, to the Superintendent of Schools, who will make a written decision, normally within thirty (30) school days.

The complete grievance procedure is found in Roseville Community School Board Policy GAAD, which can be obtained from the Coordinator

Video Surveillance

Roseville Schools periodically monitors school property, grounds, buses and buildings using video cameras to ensure the security of students, staff, and property.

Roseville Protects Privacy Rights

The Roseville Community Schools will not release personal student records such as grades, attendance or test results without the signature of the parent or the student (if over 18 years of age).

However, under the Family Education Rights & Privacy Act, (FERPA), the district is permitted to release information which would normally be found in school yearbooks, catalogs or student directories. This could include name, address, phone number, birth date, field of study, honors, awards and general photographs.

If parents object to the release of such information, they must state their objection to the building principal in writing.

Visitors

All visitors are asked to report to the school office when visiting a building.

No Smoking Policy

A state law prohibits smoking in or on school property. This includes district owned buildings or vehicles and property owned, leased or otherwise controlled by the school district. The law and Roseville board policy seek to model behavior that supports district curriculum regarding health and safety. Thank you for your cooperation in promoting a healthy environment for students and employees.

Roseville Public Schools Pesticide Program Public Notice

In accordance with Public Act 131, school administrators must advise parents or guardians of their right to be notified prior to the application of pesticide at their child's school.

As a result of this regulation, you are being advised that a routine application of pesticide will take place the first week of each month in each school. These applications will take place after school hours in non-student areas, e.g., boiler rooms, custodial closets, etc. The product used will be a water based formulation, odorless and of low toxicity. In certain emergencies, pesticides may be applied prior to notification. If more specific information is needed, please complete and return the form below.

Asbestos Update

The Roseville Community Schools recently completed their six month Asbestos Hazard Emergency Response Act (AHERA) surveillance reports and will soon be conducting their three year re-inspection for all remaining asbestos-containing building materials. These reports are required by the Environmental Protection Agency. Copies are maintained in the offices of building administrators and are available for public review.

This notification is required annually in accordance with the Federal Register 40 CFR Part 763.

RCS Cable Station

For up-to-date information and district programming, tune into the Roseville Community Schools public access stations: **Comcast Cable, Channel 19 & Wide Open West, Channel 15.**

School Closings

If schools are closed, messages will be sent via School Messenger, posted to social media, and posted on the local TV stations. When day classes are cancelled, all child care programs and evening activities will also be cancelled.

Superintendent's Discussion Group

Superintendent's Discussion Group meets at the Administration Building once a month from September until May. Check your school calendar for dates.

Media Permissions

We are proud of staff, students, and programs. From time to time, students may be highlighted in various forms of media. Roseville Community Schools reserves the right to include pictures and/or video of students in newsletters, brochures, newspapers, social media, and various other forms of media. If you would like to opt your child out of this, please contact your school's secretary.

New Kindergarten Students

Register at your neighborhood school. Kindergarten students must be five-years-old on or before September 1, 2023

- Required for registration:
- Certified copy of birth certificate
 - Three proofs of residency
 - Immunization records
 - Vision & hearing test for kindergarten students only
 - Last report card for older student (if available)

Immunization Required

New legislation requires Hepatitis B immunizations for all children in day care and for all children entering school for the first time.

The series of 3 injections is available at the Health Department free of charge to youngsters from age four until their 19th birthday. For more information, call the Macomb County Health Department in St. Clair Shores.

School Food Service Program

For the 2023-2024 school year, all breakfast and lunch meals are free for all students.
